

antitragus when the base sheet is placed on the selected body surface.

- B2
29. (New) The device of claim 1, wherein the selected skin surface of a human body is an antitragus, said device further comprising an accessory lobe to an adjacent therapy point, and wherein the orienting margin is shaped to correspond to the base of the antitragus when the base sheet is placed on the selected body surface.

30. (New) The device of claim 29, wherein the adjacent therapy point is on the inner surface of the pinna.

Remarks

Claim 6 has been amended, claim 9 has been canceled, and claims 27-30 have been added. Claims 1-8 and 10-30 are pending.

The amendment to claim 6 was made to correct a typographical error.

New claim 27 is supported by the specification at page 10, lines 20-24 and Figure 17.

New claim 28 is supported by the specification at page 9, lines 13-17 and Figure 3.

New claims 29 and 30 are supported by the specification at page 9, lines 20-25 and Figures 4-5.
